

The BIO FACTORY®

Experience

A one day training in a world leading bio printing facility to discover, experience and evaluate the Bio Factory® concept and its leading advantages in bio printing.

You will get an overview of the modular upgradable concept and the different dispensing

technologies supported by the Bio Factory®, an introduction into the programming language and the three dimensional structuring process. In this training you will be able to evaluate how your R&D work can benefit from the Bio Factory®.

Program

- 08.30 Welcome in the Bio printing Lab of the ICBC at the Zürich University of Applied Sciences
- 09.00 - 10.30 Presentation of the dispensing technologies and introduction to the Bio Factory's® upgrade kits
- 10.45 - 12.30 Introduction into the programming language and the way how to model tissues
- 12.30 - 13.30 Lunch
- 13.30 - 14.15 Presentation of the ICBC Labs and its activities in tissue engineering
- 14.30 - 16.00 Introduction into the three dimensional structuring process
- 16.15 - 17.30 Realization of three dimensional interconnected macroporous scaffolds as proof of concept

Costs

The one day training costs € 800 (lunch included). The training costs will be refunded if a Bio Factory® is purchased within a time frame of six months following the training.

Location

The training is performed at the bio printing lab of the Institute of Chemistry and Biological Chemistry (ICBC) of the Zürich University of Applied Sciences, Switzerland.

Inscription

If the Bio Factory® concept wakes up your interest and you wish to participate in the one day training please fill in the form below and send it to us.
